

# Welcome to Smart Vehicle Decision Analytics

Make informed vehicle purchase decisions powered by environmental and performance data.

Our platform helps you compare new vehicles based on emissions, air pollutants, noise levels, fuel consumption, and price : all in one place.

## Choose Your Experience

### **Search Mode**

Explore and compare vehicles using customized filters and multi-criteria analysis.

### **Assisted Decision Mode**

Let our intelligent scoring system guide you toward the vehicle that best matches your environmental and economic priorities.
